A Year in Review

Reflecting Back and Looking Forward

A big thank you to the generosity of our donors and the dedication of the organizations we are so honored to be partners with. In 2024, PVF hit a high water mark. The \$49M in grants and disbursements we distributed last year was the most we have ever made. Cumulatively, PVF has contributed \$281M to our communities.

But 2025 is looking like a year of great uncertainty in the world. So many things we have taken for granted in our lives, our country and in the world are but shifting sands under our feet. What does it all mean for us? It means the need is greater. It means we will continue to serve that need to the best of our abilities. We will do what we have always done to be a voice and force for good in our communities.

We promise to not be crushed by fear and anxiety. We will tap into the 'adventure' in 'venture' of Philanthropic Ventures Foundation. We will be a showcase for what philanthropy could be and think about new and unimagined ways of serving our communities and beyond.

We promise to be the foundation that says 'yes' when everyone says 'no'.

Programs

We aspire to transform philanthropy and make it more responsive and collaborative to meet the needs of our community. We identify needs that can be met with philanthropic support, and then we devise program ideas to help tackle the issues head on. From this drive to address unmet needs came the idea of immediate-response grants, in which we provide funds within a 48-hour turnaround. We have established a variety of immediate-response grant programs, benefiting teachers as well as social workers and juvenile court judges who work with youth in foster care.

Foundations, individual donors, and businesses partner with PVF to establish unique immediate-response grant programs because of our grassroots giving expertise. We have created and administered programs for the following donors:

“At PVF, we recognize the potential of the philanthropic dollar and seek to maximize its impact by responding creatively to requests and community needs. When we discover outstanding people doing outstanding charitable work, we take the opportunity to develop relationships, make introductions to donors and invite donors to tackle new giving programs. Donors benefit from our philanthropic expertise, extensive knowledge of the nonprofit community and experience in turning ideas into action.”

Safety Net Grants

We began PVF to do something different — to bring joy, simplicity, trust and effectiveness to grantmaking. We knew the answer was not more — more paper, more procedures, more obstacles, more time. We believed that if giving grants involved fewer, simpler processes, every dollar would work harder and do more.

PVF places high trust in outstanding individuals and programs, demonstrates flexibility and creativity in grantmaking, and takes the initiative in providing funding when it is needed. These grants, made without applications and based on trust, are unique in the grantmaking sector. Our ability to respond to community needs on a discretionary and immediate basis is made possible by bequests and gifts to PVF's endowment and by undesigned gifts from donors. PVF is proud to have their confidence.

"Critical intervention funding is being at the right place at the right time. It is at these times when smaller funds can have impact. If there is trust in the relationship, marvelous things can transpire. No matter how big the program, there is always room for being there when it counts."

Designated Fund Disbursements

In the spirit of expanding philanthropy and promoting outstanding charitable work, PVF serves as the fiscal sponsor for projects that do charitable work, but do not yet have their tax exempt status. PVF's Designated Funds allow multiple donors to receive a tax deduction for contributing to a charitable program. A Designated Fund provides donors with flexibility, enabling them to target support for innovative ideas. PVF manages the funds and prepares financial reports for the program leaders.
